

Rivenhall Integrated Waste Management Facility (IWMF) Development Consent Order

Indaver is proposing to extend the electrical generating capacity of the Rivenhall Integrated Waste Management Facility (IWMF) to increase the electrical output to more than 50MW. This increase can be achieved without the need for additional throughput of waste, nor any changes to the external appearance of the IWMF. The result will be additional electricity that is derived from the treatment of residual waste.

The consultation period will run for 8 weeks, starting on 28th June 2023 and closing at 23:59 on 23rd August. We are hosting a series of events that are open to the public, at which you can provide your feedback.

You can find hard copies of the consultation materials in the Witham, Kelvedon, Braintree, Coggeshall and Silver End libraries in Essex, and (by appointment) in the Information Hub at Woodhouse Farm.

Public Events

The Institute, Kelvedon
Thursday, 4pm-8pm

Rivenhall Village Hall
Friday, 1pm-4pm

Bradwell Village Hall
Saturday, 9am-12pm

Coggeshall Village Hall
